

# Company Profile

Established in 2015, Burton & Bamber is an agro-processing company with a vision to create income for small-scale farmers, reduce food waste and add value to local produce. We deliver world class healthy snacks and food ingredients created from locally sourced inputs. We're building a sustainable supply chain and offering premium prices for good quality produce.

We support farmer suppliers with agronomy training for improved crop yield and quality, agro-inputs and Global GAP certification.

## Certifications:

- Our processing facility is FSSC 22000 certified.
- Global GAP certification delivers traceability and quality assurance on fresh inputs.
- All our products carry KEBS standard mark for quality assurance for the East African market.

## Our products:

# Sweetunda

**Sweetunda Dried Fruit and Rolls** Our dried fruit (mango, banana, pineapple) is delivered with No Added Sugar and our fruit rolls (mango, raspberry, strawberry) are literally fruit and a little honey – encouraging children to enjoy healthy treats. After all, fruit is nature's way of saying "It's OK to have a sweet tooth!"

**Sweetunda Granola** uses as many locally produced ingredients as possible and excludes refined sugars.

**Sweet Potato Crackies** made from orange flesh sweet potato offer a delicious, more nutritious alternative to potato snacks. Available in Fruit Chutney and Tomato Ketchup flavours.

**Orange Flesh Sweet Potato (OFSP) Puree** Burton & Bamber is the first East African supplier of aseptic OFSP puree. OFSP has exceptional nutritional value, including high levels of Vitamin A and dietary fibre. Aseptic OFSP puree is shelf stable without refrigeration for 24 months, delivering production cost reductions for food manufacturers of breads, baked goods and all sweet potato uses.

**Fruit and Vegetable Purees** Mango, blueberry, banana aseptic purees offer shelf stable ingredients for smoothies, dairy and all fruit applications.
